

**Evening**

Evening, evening  
 and the sun goes down, down, down.  
 The moon will rise again,  
~~The stars will glow and shine.~~  
 The night birds call,  
 the night birds call,  
 the night birds call in vain.  
 Soft the sound of the gentle wind.  
 Ooooo...  
 Evening, evening,  
 and the sun goes down, down, down.
